### Description :

EGDL100 series is an indoor constant voltage LED DALI power supply. Its input voltage range is 198-264Vac, with the high efficiency up to 93%, working in the temperature range of -20°C~+45°C ambient temperature range. It has ultra-high power factor, low THD, low standby power consumption, full protection function, which not only greatly improves the reliability of the product, but also ensures the life cycle of product. This series is designed for LED lighting, suitable in indoor lighting use. Comply with Dali 2.0 standard ( IEC 62386-101 , 102 , 207 , 209 ) . Innovative thermal management technology, intelligent protection of power supply life.

### Model

Model	Rated output voltage	Rated output current	Max. output power	Output voltage tolerance	Total harmonic distortion (Typ.)	Power factor (Typ.)	Efficiency (Typ.)
EGDL100-24VF6	24V	0-4.16A	100W	±5%	5%	0.97	93%

**Remark:** All parameters NOT specially mentioned are measured at 230VAC input, full load and 25 °C of ambient temperature  
PUSH dimming

Dimming: Long-time press

Push on/off: Short-time press

Dimming memory: when the light is switched off and turn on again, the light will return to the previously adjusted brightness level

Each long press, the brightness will be adjusted in the opposite direction

Long-time press for more than 15s is the synchronization function, and all devices are adjusted to 50%.

Long-time press and hold, the dimming brightness down again.
